Experience

INDEPENDENT DEVELOPER

2018-Present
I love working on digital projects. Using a myriad of technical skills from programming to digital sculpting, I often create fun and sometimes interactive experiences for others online.

CUSTODIAN U OF M FACILITIES

2026-Present
I clean and maintain a safe environment for students to live and study at wolverine village.

ASSET PROTECTION WALMART

2019 - 2026

About Me

I am a self-taught developer that deeply enjoys a good puzzle. I work on game prototypes in my spare time. I learn fast and am curious about how things work. My hobbies include 3D Printing, Electrical Engineering, Lockpicking, and of course Video Games. If you want more information or have any questions, give me a call or send me an email. I am pretty much always available, and I would love to hear from you.
